TO WHOM IT MAY CONCERN

**RECOMMENDATION FOR
FIBRE BASED INTEGRATIONS CC**

This serves to provide a referral for Fibre Based Integrations. We have been working with Fibre Based Integrations on the roll-out of the City Centre Surveillance project in Tshwane.

The fibre optic backbone was designed and installed by Fibre Based Integrations. Part of their scope of work was to supply the Teleste single mode fibre optic transmission equipment which has now become our standard.

Fibre Based Integrations has always conducted themselves in a professional manner and the after sales service that we receive from them is from the highest standard.

I continue to enjoy working with Fibre Based Integrations, and would highly recommend them on any similar surveillance project.

Should you have any questions, please feel free to call me.

Yours faithfully

Collen B. Khoza, (Mr.)
CEO
